CAREER OBJECTIVE

As a starting full stack developer, I wish to obtain a career that will build upon the foundation laid by the education provided to me from my full stack bootcamp. I want learn more from experienced personal of this field and be able to present myself as a more marketable candidate for future companies. Ultimately, I want to use my knowledge as a web developer and marry it with my love for history and museums and provide a service to museums as they evolve in their use of technology for their exhibits.
